SUPRAJA K

Driven Front-End Developer with 4.5+ years of experience in building dynamic and responsive web pages using HTML5, CSS3, Bootstrap, JavaScript, React, and Angular. Proficient in API integration, testing, and version control with Git. Adept at collaborating with cross-functional teams and leveraging strong communication skills to drive project success.

WORK EXPERIENCE

03/2021 - Current | Junior Web Developer | Indegene

- Developed over **500+** webpages in the healthcare industry for **Johnson & Johnson**, achieving a **97% First Time Right** rating.
- Secured content master in the CEB market and boosted revenue, with Benelux accounting for **50%** of overall revenue.
- Diagnosed and resolved bugs during testing by debugging code, identifying root causes, and implementing effective fixes to enhance system stability and performance.
- Created Registration forms using the Form Assembly platform for J&J and developed multiple J&J e-Event pages to enhance user engagement and event management.
- Participated in project planning and asset auditing to ensure efficient resource management and seamless project execution.
- Skilled in managing multiple tasks concurrently, delivering projects on time, and exceeding client expectations.
- Collaborated with the design team to create visually appealing and user-friendly interfaces, ensuring seamless integration of UI/UX designs into web applications.
- Exhibited leadership as a backup lead, effectively guiding the team with strong communication and team management abilities.
- Continuously optimized the codebase for performance and scalability, adhering to best practices and conducting code reviews.

08/2020 – 02/2021 | Junior Web Developer | Indegene (Parent: Software Pundits)

- Created webpages for pharmaceutical clients like **Johnson & Johnson**, showcasing high quality and seamless user experiences across devices.
- Developed minor enhancements to address website and web application issues promptly and efficiently.
- Identified and resolved issues during the testing phase by debugging failed test cases, analyzing logs, and fixing bugs.
- Documented the analysis and resolution process for bugs, including investigation details, tools used, code changes, and configurations.

12/2019 – 5/2020 | Front End Developer (Intern) | SimplyFi Softech Pvt. Ltd

- Developed company websites utilizing **Angular and React**, showcasing expertise in modern web development technologies and frameworks.
- Successfully implemented **API integrations** to enhance functionality and streamline data exchange in web applications.
- Utilized **Git** for version control, managing code repositories, tracking changes, and ensuring seamless collaboration across development teams.
- Identified and resolved bugs during testing, diagnosing issues, debugging code, and implementing fixes to ensure system stability.
- Deployed and hosted web applications, ensuring optimal performance, scalability, and reliability across various hosting platforms.
- Collaborated with the design teams to transform UI/UX designs into dynamic web interfaces, ensuring seamless integration of design and functionality.
